Release Notes for Link Provider Dashboards version 2016.3.v01.00

Release Date: 3/10/16

Purpose of the release

The version 2016.3.v01.00 release of Link Provider Dashboards supplies new functionality to view all installed applications from the left and top navigation bars and refines the application categories in the Link Marketplace. This release also includes updates to the user interface (UI). This document outlines the new and modified features included in this release.

The major themes of this release include:

- Availability of My Apps from left and top navigation bars
- Updates to Link Marketplace categories

About Link Provider Dashboards

Link is an intuitive, self-service experience for care providers and their staff that improves administrative workflow to make their work measurably faster and easier.

Supported browsers

Link Provider Dashboards work best with the following browsers:

- Microsoft Internet Explorer
  - Recommended: versions 10 and 11
  - Supported but not recommended: versions 8 and 9 (Your user experience may not be as functional on these versions.)
  - Note: Use the Tools menu Compatibility View settings to turn off Compatibility View for linkhealth.com and ensure that Display internet sites in Compatibility View is not selected.

  - Mozilla Firefox versions 35 and above
  - Google Chrome versions 37 and above
  - Apple Safari version 7

Retired applications

The following application was removed from Link Marketplace:

  - Optum Medical Networks (UT and AZ)

Enhancements to Link Marketplace functionality

Updated application categories

This release of Link Marketplace implements the following application categories:

- Administrative Simplification
- Care Management & Coordination
- Clinical Performance & Reporting
- Coding & Compliance
- Government Programs
- Health Information Exchanges
- Payer Self-Service Portal
Enhancements to Link functionality

**My Apps now available**

For dashboard users, a new page, **My Apps**, allows quick access to all provisioned applications. To view **My Apps**, users click **My Apps** from the left navigation menu or click the set of small squares visible at the top right corner of the Link dashboard.

When users open the **My Apps** page, they will see all applications available to them on all dashboards. Users can filter **My Apps** to show only the applications they have access to on a specific dashboard. **My Apps**, when opened from the left navigation menu, includes a brief description of each application. From **My Apps**, users can click any application name to open the application page.
