Release Notes for Link version 2017.01.v01.00

Release Date: 01/19/17

Purpose of the release

The version 2017.01.v01.00 release of Link includes an update to Link functionality. This document outlines this feature.

About Link

Link is an intuitive, self-service experience for care providers and their staff that improves administrative workflow to make their work measurably faster and easier.

Supported browsers

Link works best with the following browsers:

- Microsoft Internet Explorer
  - Versions 10 and 11
  - Supported but not recommended: version 9 (Your user experience may not be as functional on this version.)
  - No longer supported: version 8
- Note: Use the Tools menu Compatibility View settings to turn off Compatibility View for linkhealth.com and ensure that Display internet sites in Compatibility View is not selected.

- Mozilla Firefox versions 35 and above
- Google Chrome versions 37 and above
- Apple Safari version 7 and above

Enhancement to Link functionality

Visual indication of new tiles added to a personalized dashboard

In order to assist a user who has personalized their dashboard to quickly spot a newly added tile, Link will display the new tile in the first row of tiles and highlight it with a blue border. The user will also see a blue notification banner informing them of the availability of the new tile. The highlight and banner appear for any new tile provisioned to the user, whether by a system administrator or self-provisioned by the user from the Link Marketplace. The highlight and banner continue to appear for the new tile until the user again edits their dashboard.
